

FACTS & FIGURES

HIGH TECH CAMPUS

EINDHOVEN

TURNING TECHNOLOGY
INTO BUSINESS

High Tech Campus Eindhoven is the smartest square kilometre in Europe. More than 10,000 researchers, developers and entrepreneurs are working at over 135 companies and institutes on developing future technologies and products. They are part of a unique and vibrant ecosystem of established global brands, leading research institutes, fast growth enterprises, high-tech startups and service companies. Located at the heart of the Brainport region, Campus companies are responsible for nearly 40% of all Dutch patent applications.

The Campus helps companies accelerate their innovation by offering easy access to high tech facilities and international networks. Knowledge, experience, world class research facilities and technical infrastructure are shared in an Open Innovation ecosystem. The focus is on finding answers to the big global questions in Health, Energy and Smart Environments.

FACILITIES, EXPERTISE AND SERVICES

Cooperation is boosted by the collaborative and open research programmes of technology institutes such as Holst Centre, Solliance, the Centre for Translational Molecular Medicine, EIT Digital, EIT KIC InnoEnergy and ITEA 3. Campus residents also have access to Philips Innovation Services with 25,000 square metres of multi-purpose labs and clean rooms, reliability testing, over 10,000 electronic instruments for hire plus a 3500 square metre pilot factory.

CENTRE OF KNOWLEDGE

The Campus is at the heart of the Brainport region Eindhoven, renowned for its high concentration of high-tech and knowledge intensive industry. The region provides more than 50,000 jobs in the high-tech, automotive, life sciences, food, (industrial) design and development industries. Global technology players like Intel, ABB, Philips, ASML, NXP, FEI Company, Canon, VDL Group and TomTom are based here.

GREAT PLACE TO WORK

The Campus hosts about 500 events per year, mostly technical conferences and business events, but also network meetings. The active hub of activities is The Strip, a 400-metre-long building, complete with restaurants and extensive conference facilities. It's the place to discuss, negotiate and inspire others. There are also several shops, a supermarket and Campus Wellness Centre. In addition Campus Sports provides a whole range of indoor and outdoor sports activities.

FIGURES

Terrain

- 103 hectares
- 10,000 m² social services
- 45,000 m² R&D facilities, labs, clean rooms
- 115,000 m² (re)development space
- 10,000 m² reserved for startups (Bèta + Mu)
- 185,000 m² office space
- 15 km pedestrian paths
- Smartest square kilometre in Europe

People / companies

- Over 10,000 highly-skilled people
- Over 135 companies
- About 60 startups
- Over 85 nationalities
- 4 patents created every day
- Nearly 40% of Dutch patent applications
- Eindhoven University of Technology nearby

WHAT OTHERS SAY

- Dutch Ministry of Economic Affairs has designated High Tech Campus Eindhoven as a 'campus of national significance'
- The London Financial Times ranked Eindhoven in third place in its 2013/2015 European Direct Investment Index. Eindhoven ranked first in the FDI Strategy category for all small European cities.
- Forbes Magazine stated Eindhoven is hands-down the most inventive city in the world, producing 22.6 patents for every 10,000 residents. That is well ahead of the second on the list, San Diego, with 8.9 patents per 10,000.
